

Speed Limit Change Survey Results

1. What do you think the speed limit on the City-maintained streets should be?

Age Group	15mph	20mph	25mph (no change)
N/A	0	0	2
21-29	0	1	2
30-39	2	2	5
40-49	0	5	5
50-59	3	1	7
60-69	0	0	4
70+	1	2	3
Total	6	11	28

2. Do you think the speed limit should be the same for Commercial, Industrial and Residential Zones in the City?

Yes	No	N/A
29	13	3

3. Do you feel that drivers speed on the street you live on? Or the street you operate your business on?

Yes	No	N/A
30	13	2

4. What street do you live or operate your business on?

Street Name	Speeding: Yes	Speeding: No
Brentwood	0	2
Butteville	1	0
Champoeg	1	0
Chantal	1	4
Cone	3	0
Crisell	0	3
Ehlen	1	0
Ernst	2	1
Feller	3	0

Huckleberry (Butteville)	2	0
Main	11	0
Matthieu	1	0
Red Oak (where is this)	0	1
Rees	2	1
Ruth	1	0
Williams	1	0
Total	30	12

Question 5. Do you have any comments you would like to share with the City Council regarding Speed Limits on Donald Streets?

By age group

No Age

1. I think reducing the speed limit is a preposterous proposition.

2. Leave it alone.

21-29

1. I think Main St should remain the same speed limit, while residential streets could be reduced to 10-15mph.

2. Every time I leave my street on Brentwood Ct I see drivers coming from the School going 30-40 mph and it scares me because there is alot of Kids down my Street. Sometimes I even wanna get out of my car to make them slow down.

3. Put Speed Bumps entering the City that way drivers are forced to reduce there Speed.

30-39

1. The current speed limits are sufficient.

2. We already have speed bumps throughout the entire neighborhood. It's impossible to do more than 15-20 anyways.

Doesn't seem like there is really a point to posting a lower speed limit. If someone is going to speed at this point no change in regulations is going to alter that.

3. Nobody follows the speed limit anyways.

4. 25 is just right in my opinion.

5. I think speed bumps should be put in place in front of the park and bar/cafe. I work at the store and I've seen cars fly through here on a daily basis and it's scary.

40-49

1. Something needs to be done people drive down Main St. so fast and don't even watch for Kids or Pedestrians and it's scary.

2. Speed Bumps did no good. They just fly faster over them. Makes more noise. You can lower the speed all you want--people will still speed. Only will affect the people that actually follows the rules. Make us go slower takes longer to get to work to pay for all illegals running around with no insurance. It's the truth. My Doctor got hit by an uninsured undocumented worker. Step Father. Best Friend. Do I go on? Irregardless they will speed. Don't punish everyone.

3. The 25 mph speed limit needs to extend past Country Oak Estates. It's a no brainer.

4. Large Speed Bumps...

5. Maybe speed bumps to slow drivers down they go speeding down Main St and Butteville.

6. The speed on Main St to be reduced much lower to ensure safety. Numerous vehicles are seen speeding and passing on Main St at or just past Huckleberry. This is both coming into town and leaving town. I would love to see this turned into a 3 way stop. I've personally witnessed multiple vehicles reaching speeds well above 80 mph leaving town on Main St heading east toward I-5

7. People become increasingly careless as speeds decrease. A large percent of Drivers are ignoring the limits completely instead driving the perceived safe speed. (read: "Self Enforcing Roadway"), some traffic calming measures can actually be aggravating to drivers causing more aggressive driving.

8. Also stop signs are often ignored either rolling through or 5-10 mph.

50-59

1. I would like the Council to look into the cost of having the limits posted not only on the signage but also the digits torched onto the street like sidewalks are. We have a City installed speed bump in front of our house and most just fly over it or drive into our yard to go around it. Also if a Fire Tanker or Engine hits it at a higher speed our house jumps.

2. What difference does a speed limit make? they never get enforced

3. Put traffic control by the damn Truck Stop.

4. Unfortunately, without the risk of getting a ticket speeders in residential zones will speed. In our neighborhood they don't even stop at Stop signs.

5. I know we only get 40 hours of Police presence but that is not enough. I sit on my front porch and both Cars and Trucks are speeding. We need some serious intervention from MCSO.

6. Portland has adopted a program called Twenty is Plenty in their neighborhoods and it seems to work well. Children playing signs may be affective also to make people aware to slow down.

7. Cone St seems like it is used for Drag Racing. there are alot of kids who walk, ride bikes, etc; people need to slow down. I see people speeding all over town all the time. I hope the new sheriff starts giving out some tickets, maybe this will also help people slow down.

8. Main St needs to be patrolled more coming into town from the east.

9. Please don't change it.

60-69

1. It's not so much the Speed Limit but the fact that ppl know we don't have enough Police enforcement. Changing the speed limit won't stop speeders without enforcement.

2. Speed bumps may slow folks down. Since we don't have Police coverage changing the Speed Limit won't stop those in a hurry.

3. Even though the city installed Speed Bumps on Feller St some years ago with the hopes of slowing speeders down, many drivers still go way to fast, hitting those bumps so hard that I'm surprised that they haven't left parts of there suspension on the road. If a person is someone who drives over the speed limit they will more than likely continue to do so regardless of the limits some feel that they are above the laws of the road, in my opinion.

4. I walk the streets of Donald and have no issues with cars at the current speed. I've lived here since 1985.

70+

1. Councilor Scott needs to recognize that Main St, which brings his

suggestion for lower limits and runs on the South side of his property, is controlled by Marion County. As such, his attempts to lower the Speed Limit on all City streets EXCEPT Butteville Rd and Main St seems to be his idea of how to affect change for his perceived betterment.

2. We sit on our back deck in the evenings and the traffic going east is unbelievable with the speed they are going. This also includes large Semi's which I thought were not allowed through town.

3. I agree with the 25 mph in Donald. I do wish something would be done at the intersection of Butteville and Ehlen Rd. It is a dangerous intersection.

4. NO POLICE TO ENFORCE IT

5. I am not sure how we can enforce speed limits. That being said, I believe all streets within the City limits should be no more than 20 mph.

6. I think the Speed Limit is OK, Just need to be enforced. The Speed Bumps helps maybe we need more.
